6.	UNINSTALL INSTRUCTIONS.....	15

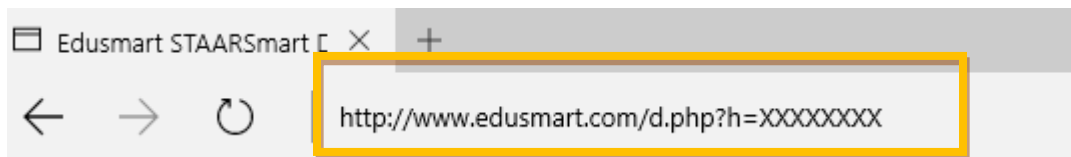

1. System Requirements

- Windows 98/98SE/2000, XP, Vista, Windows 7, 8, or 10
- Pentium IV 2.8 GHz (or equivalent)
- 1GB RAM
- 100 MB free hard disk space
- Internet and software registration are required to activate the program.

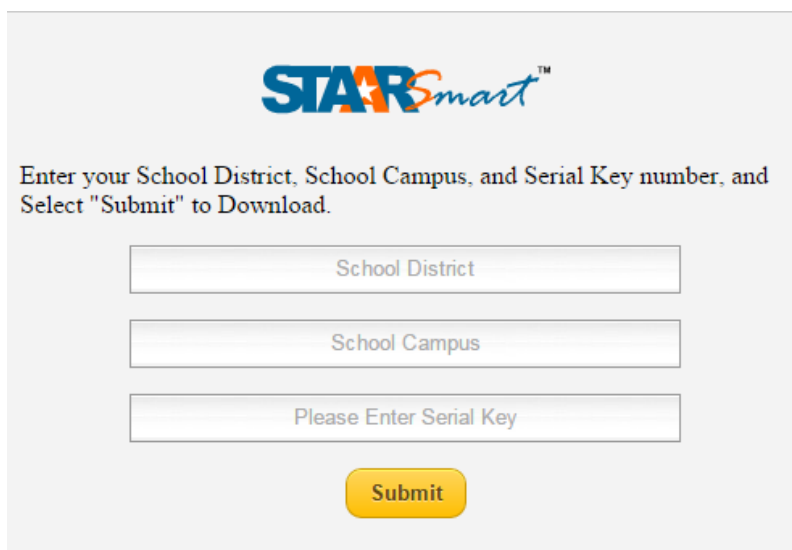

2. Product Registration and Download

2.1 Using Microsoft Edge (Windows 10 only)

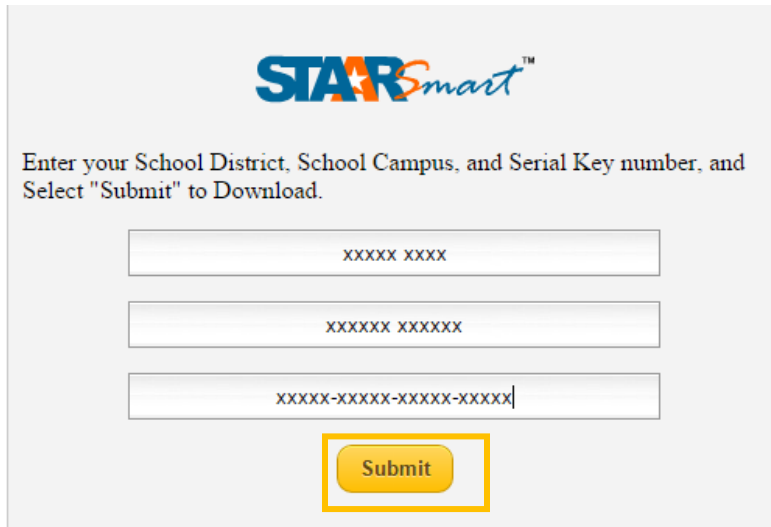

- Copy and paste the URL that you have received from the Edusmart Sales or Support team in the browser's address bar as shown below:

- The STAARSmart registration window appears.

A screenshot of the STAARSmart registration form. At the top is the "STARSmart" logo. Below the logo is the instruction: "Enter your School District, School Campus, and Serial Key number, and Select 'Submit' to Download." There are three input fields: "School District", "School Campus", and "Please Enter Serial Key". Below these fields is a yellow "Submit" button.

- Enter your School District name, School Campus, and the serial key that you have received from the Edusmart Sales or Support team.

STAR Smart™

Enter your School District, School Campus, and Serial Key number, and Select "Submit" to Download.

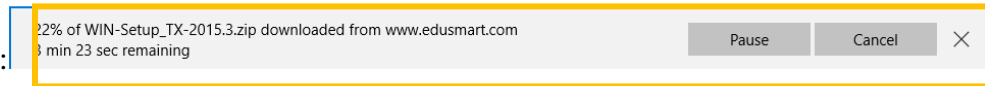

xxxxx xxxx

xxxxxx xxxxxx

xxxxx-xxxxx-xxxxx-xxxxx|

Submit

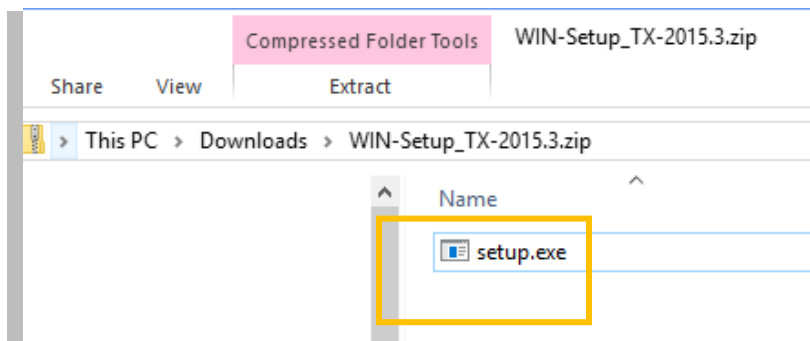

- Then select **Submit**. The installer file will be downloaded automatically as shown below (e.g. windows.exe installer).

- Select **Open** once the file has downloaded.

- Run the downloaded file (e.g. as shown setup.exe below) by double-clicking on it.

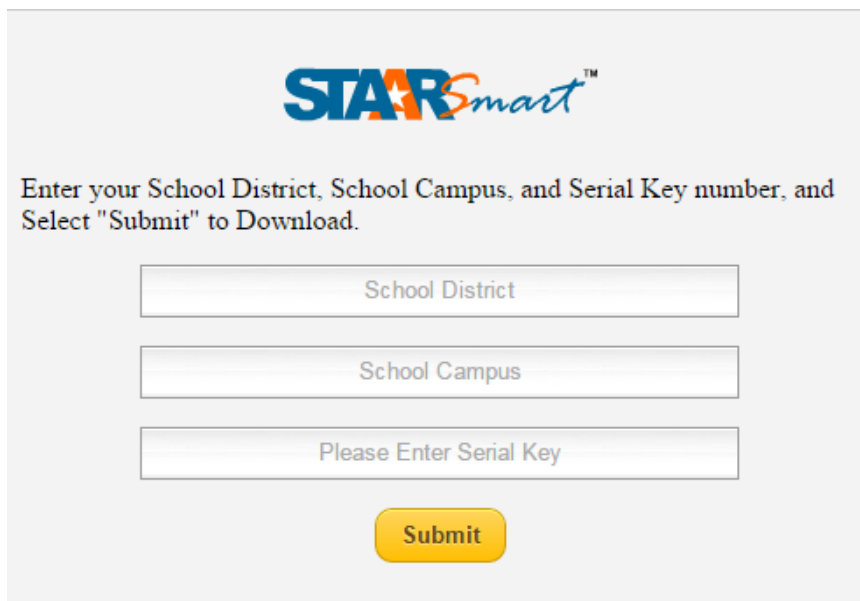

2.2 Using Internet Explorer 11

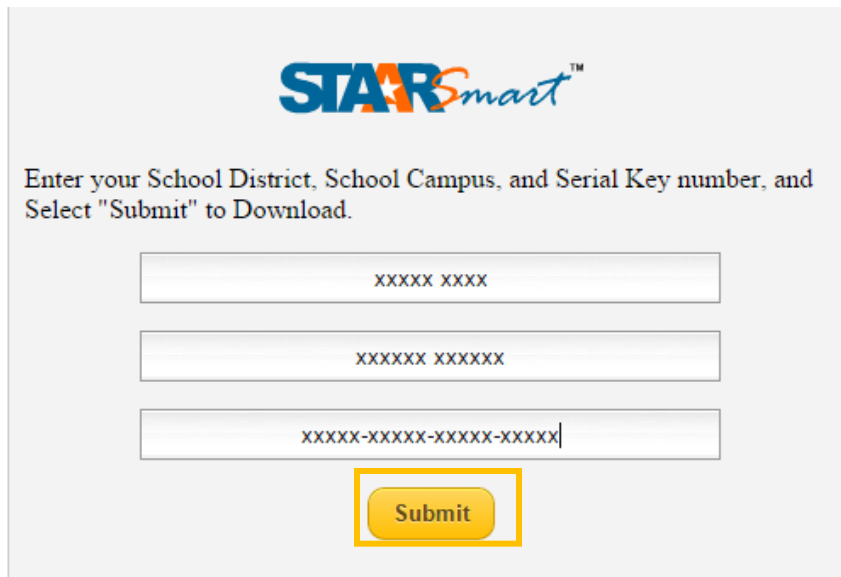

- If you are using Internet Explorer 11, copy and paste the URL that you have received from the Edusmart Sales or Support team in the browser's address bar as shown below:

- The STAARSmart registration window appears.

A screenshot of the STAARSmart registration window. At the top center is the "STARSmart" logo. Below the logo, the text reads: "Enter your School District, School Campus, and Serial Key number, and Select 'Submit' to Download." There are three input fields: the first is labeled "School District", the second is labeled "School Campus", and the third is labeled "Please Enter Serial Key". Below these fields is a yellow "Submit" button.

- Enter your School District name, School Campus, and the serial key that you have received from the Edusmart Sales or Support team.

STAR Smart™

Enter your School District, School Campus, and Serial Key number, and Select "Submit" to Download.

xxxxx xxxx

xxxxxx xxxxxx

xxxxx-xxxxx-xxxxx-xxxxx|

Submit

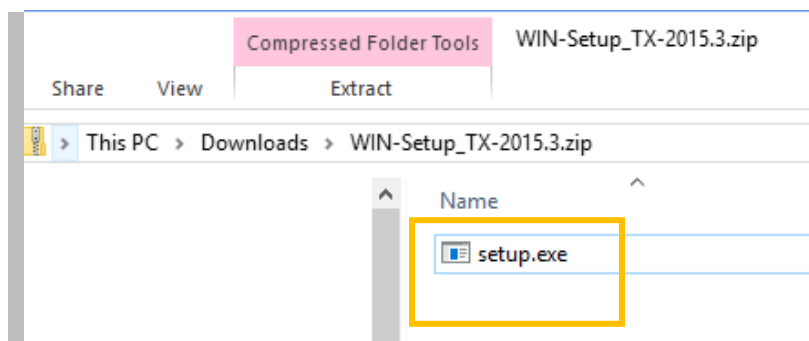

- Enter the required information, then select **Submit**. Select **Save** from the options highlighted at the bottom of the browser as shown below (e.g. windows.exe installer).

- Select **Open** once the download has completed.

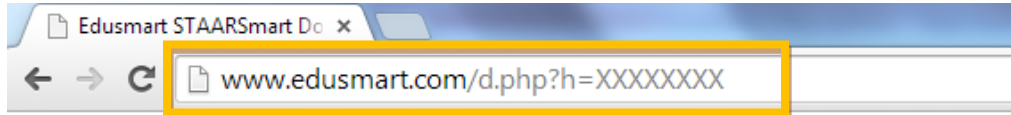

- Run the downloaded file (e.g. as shown setup.exe below) by double-clicking on it.

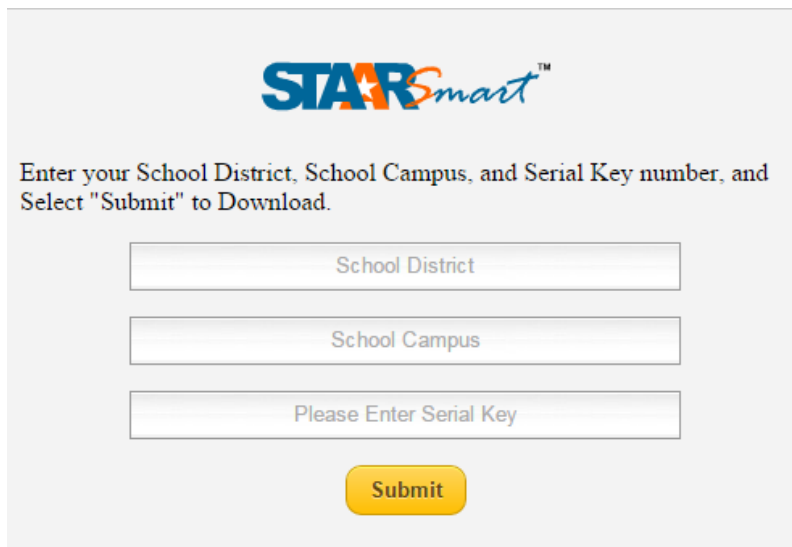

2.3 Using Google Chrome

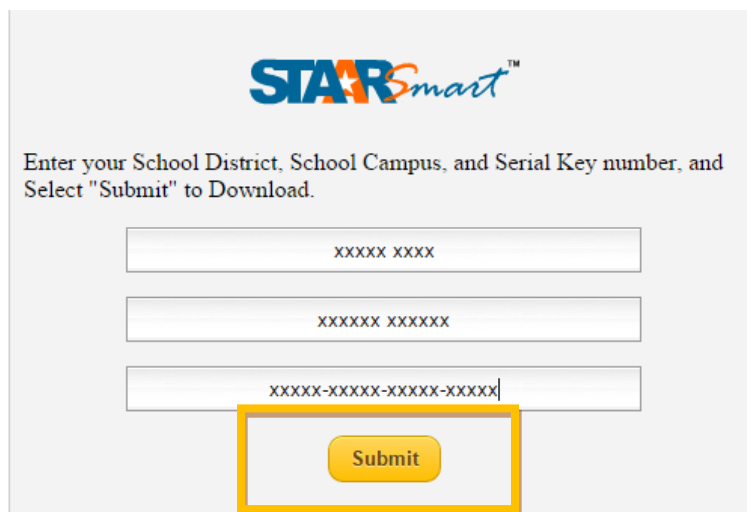

- Copy and paste the URL that you have received from the Edusmart Sales team or Support in the browser's address bar as shown below:

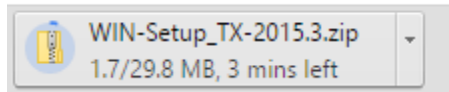

- The STAARSmart registration window appears.

- Enter your School District name, School Campus, and the serial key that you have received from the Edusmart Sales or Support team.

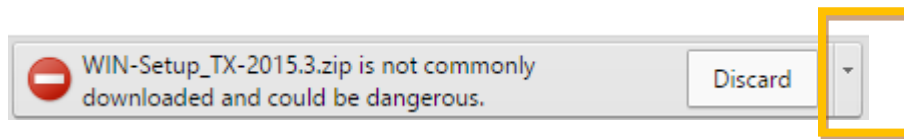

- Enter the required information, then select **Submit**. The installer file will be downloaded automatically in the zip format for windows.exe installer or .msi file for msi installer.

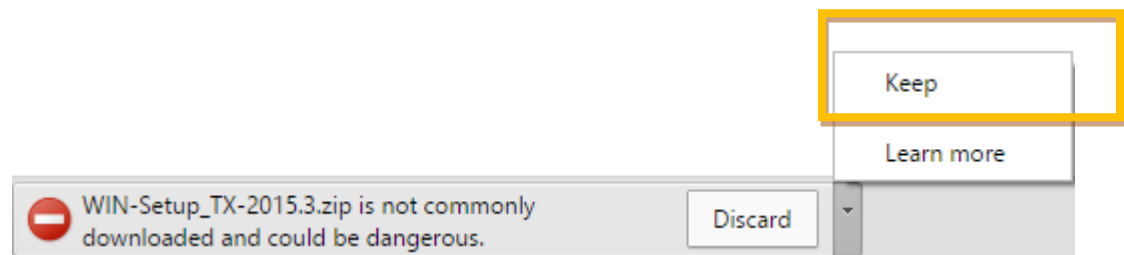

(eg. Windows installer)

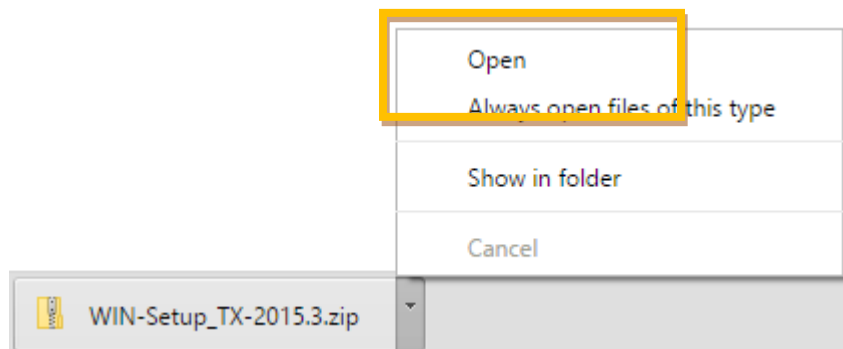

- Once the download has completed, you will see this warning: "This download could be dangerous." Please ignore it and select the drop-down button that will appear at end of the message.

- Select **Keep**.

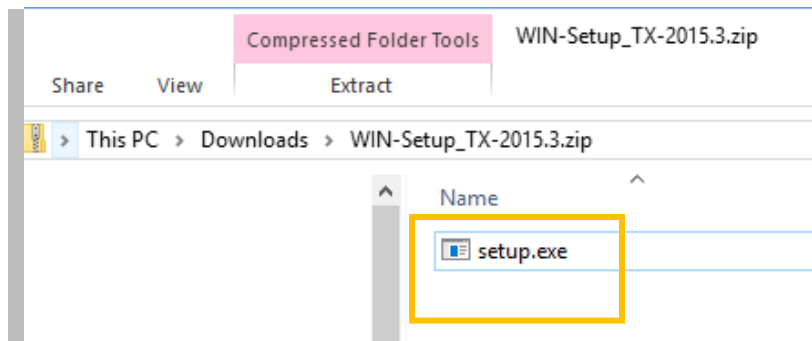

- Select the drop-down button which appears at the end of the file name and select **Open** to run the setup.

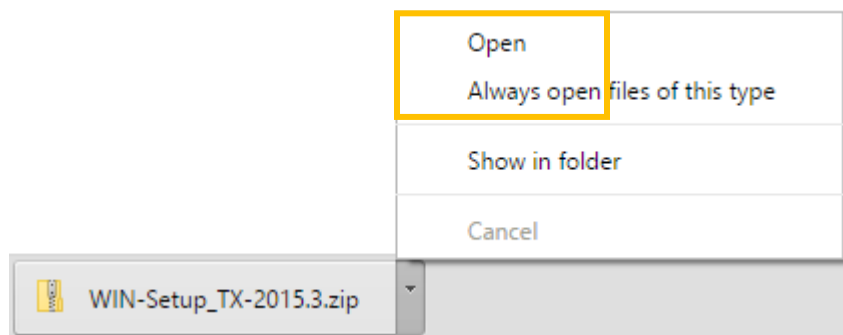

3. Installation Instructions

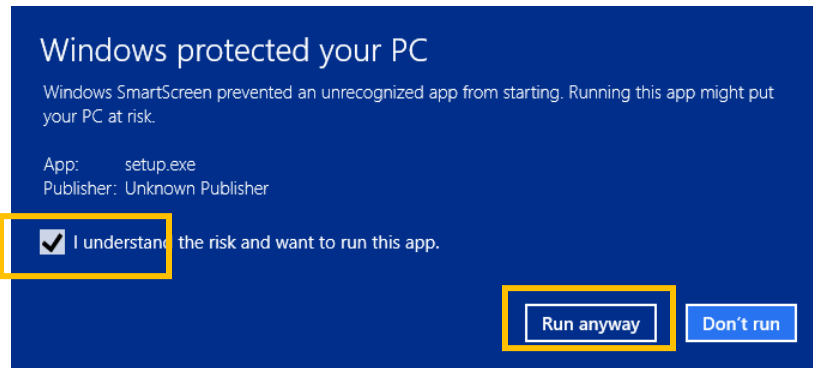

- Run the downloaded file (e.g. setup.exe) by double-clicking on it if you are using Microsoft Edge or Internet Explorer 11.

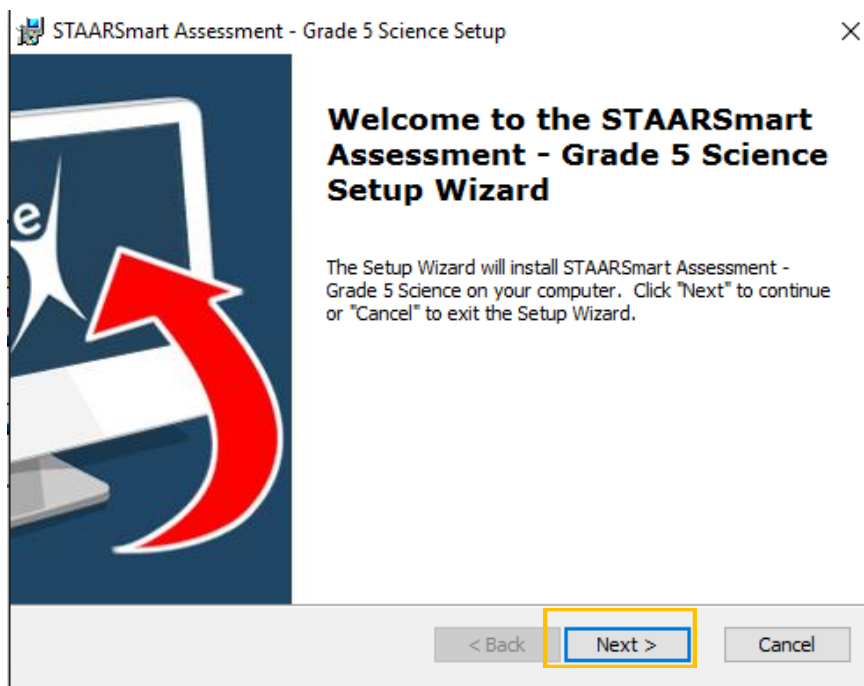

- If you have downloaded the installer using Google Chrome, you can run the downloaded file by selecting **Open** directly from the bottom of the browser as shown below:

- If you are using **Windows 10** with the SmartScreen enabled, you will be prompted with a security alert. Please check the box as shown below and click on **Run anyway**, or if you are using an older version of Windows, you may be prompted with a security risk alert while running STAARSmart. Please ignore it and allow the .exe to run.

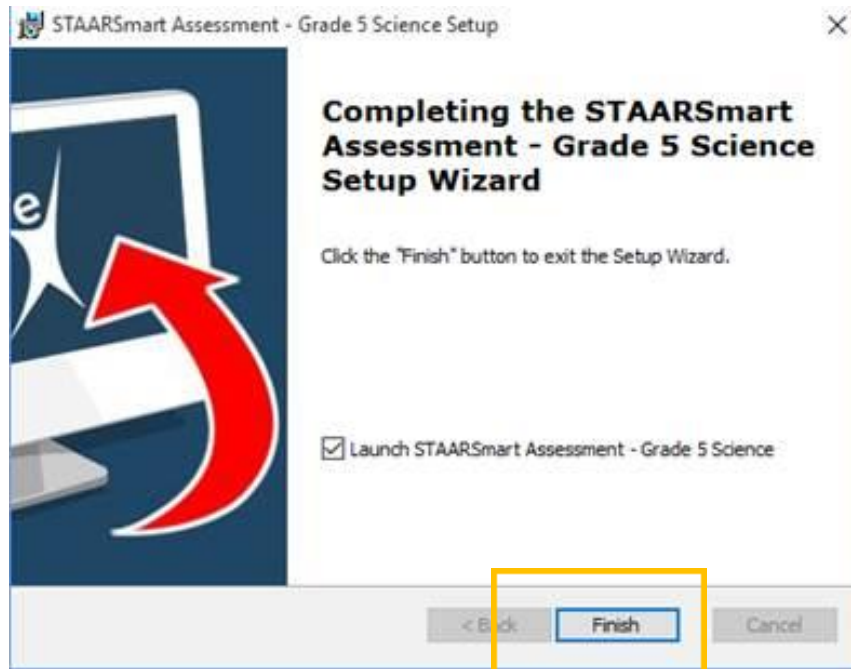

- Follow the onscreen instructions as they guide you through the installation process.

e.g. STAARSmart – Grade 5 Science

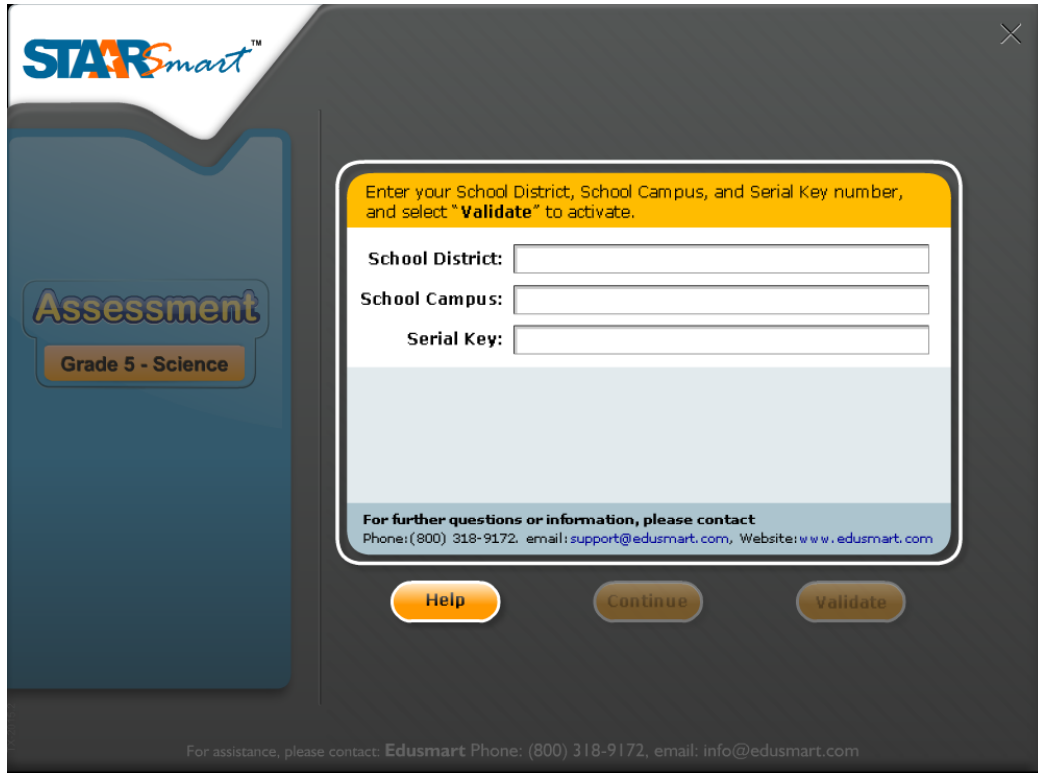

- On completion of the installation, select **Finish** to launch the program automatically.

e.g. STAARSmart – Grade 5 Science

4. Product Activation

- Upon completion of the installation, you will be prompted with **Finish**. On selecting **Finish**, the serial key validation window will launch.
- If you are running STAARSmart for the first time, you will be prompted with serial key validation window as shown below:

STAR Smart™

Assessment

Grade 5 - Science

Enter your School District, School Campus, and Serial Key number, and select "Validate" to activate.

School District:

School Campus:

Serial Key:

Buttons: Help, Continue, Validate

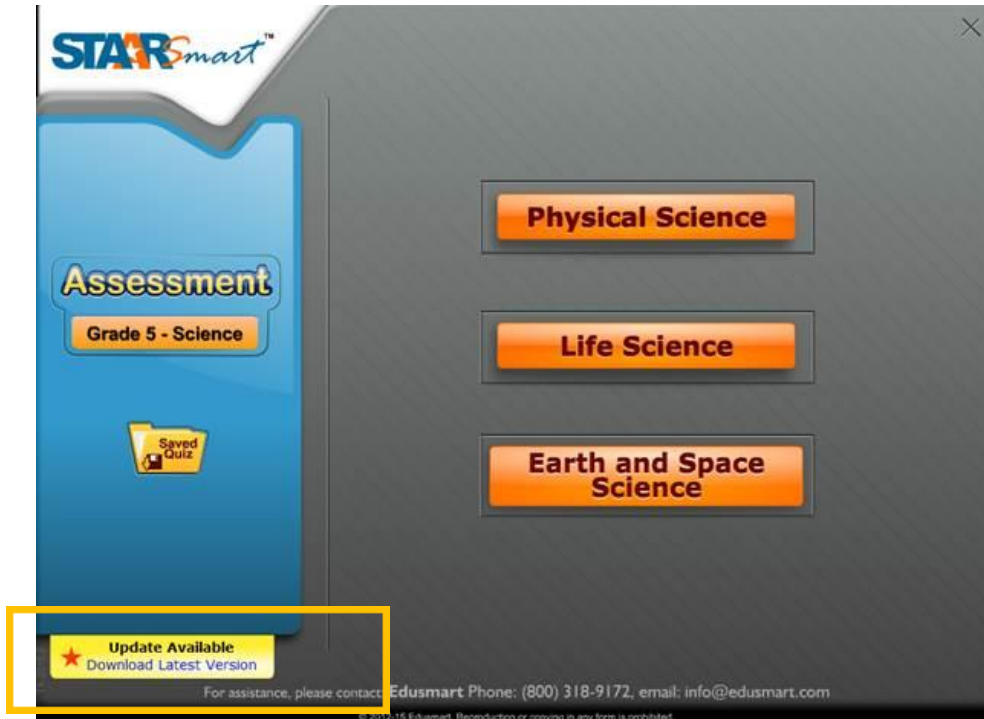

- If you are using the trial product, you can enter the serial key for access to the full product by clicking on the counter.

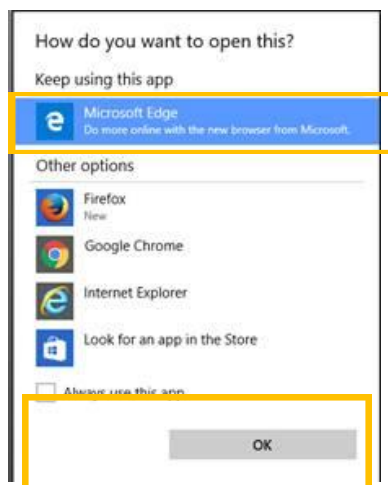

- The program creates a desktop icon for "STAARSmart – Grade X" that can be double clicked for future launches.

5. Updates/Upgrades

- If you are already using the STAARsmart Product, you will be notified in the main interface of the product as shown below:

- On selecting **Update Available**, you will be prompted with a browser option to download the file installer (e.g. Windows Installer*).

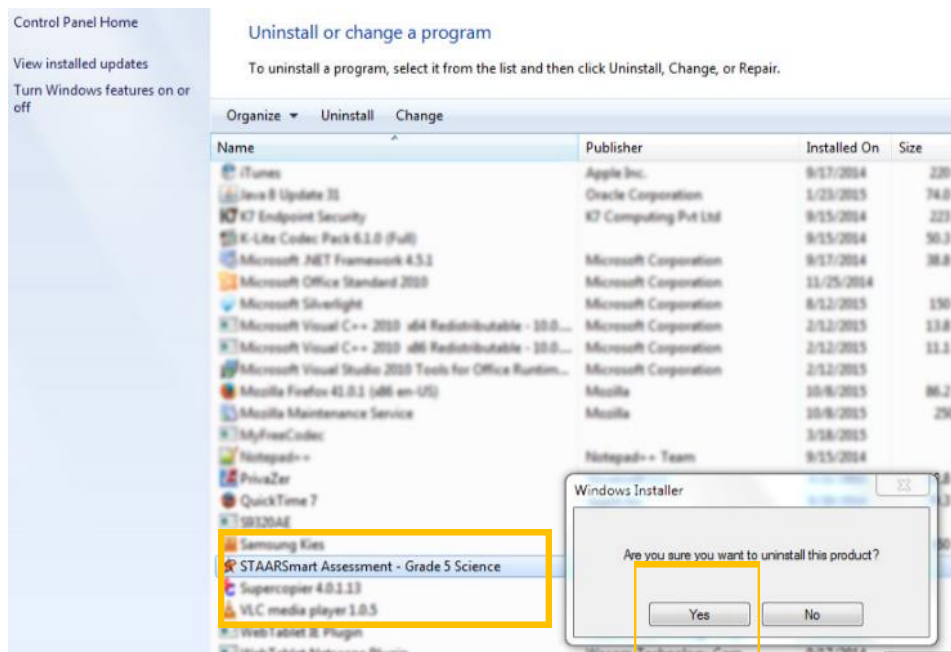

Please refer topic 2 and 3 from this manual for download and installation instruction.

6. Uninstall Instructions

- The STAARSmart product incorporates an Uninstall Program which will remove the product from the computer automatically.
- If your subscription expires or you no longer wish to use the program, you can remove the product from control panel using **Add/Remove Program**.
- If you are using Windows 7, select Programs from the control panel.

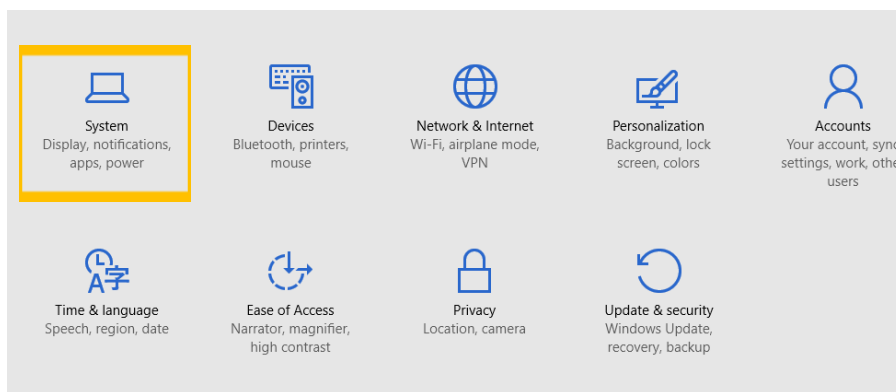

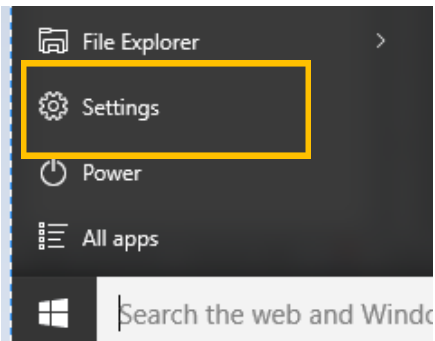

- Remove the product by double clicking on the product.

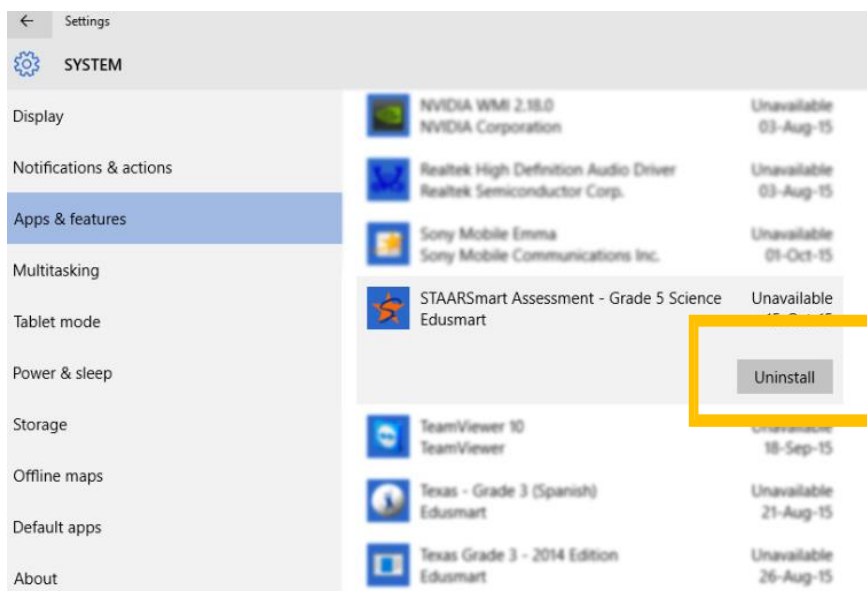

e.g. STAARSmart – Grade 5 uninstall

- If you are using Windows 10, select **Settings** from the Windows icon's menu and select **System** as shown below:

- Select **Apps & features** and select the product you wish to uninstall. Select **Uninstall** as shown below:

The STAARSmart product will be removed automatically from your computer.
